

TAG FLAG

2010 Ixtapa Sailfish Tournament Announces the 2010 Championship Team.

Angler Rick Bothmer wins his first championship
 2nd place going to Kelly Schultze,
 3rd place going to John Jacobi
 4th place Greg Wallace.

The Tournament Anglers Association recently held the 20th Annual Sailfish Tournament in Ixtapa, Mexico. From the warm greetings of the Dorado Pacifico Hotel to the warm Mexico sun, 36 Anglers and 17 guests enjoyed a week of fishing, fun and good entertainment. It was an interesting week, as many guests arrived before the start date to get settled and do a little pre-tournament fishing. This proved to be quite an experience for members fishing on Friday who found themselves caught in a rather large, strong storm about mid-day.

Aboard the Don William was Tournament Chairman, Ed Lynch and long time friend, Gary Morgan. After working 5 sailfish in fairly calm seas during the morning hours to a little drizzle, the seas and sky opened up around 11:30 am and quickly pushed the wind to 25+ knots and

6-8 foot seas. Not a problem for a bigger boat, but the 28 foot Panga and all aboard were taking a beating. It took well over 3 hours to safely travel the 13 miles back to the Zihuatanejo Pier, where the life vests were quickly removed and the two headed back to Dorado Pacifico for hot showers and warming fluids. As Gary Morgan later commented, "I danced with the devil today". Similar stories were reported from other anglers, but all made it back unscathed.

This year, the Dorado Pacifico wanted to do something special for the 20th annual celebration and decided to make this year's event all outdoors. What a treat! The opening banquet was held in the Sunset Bar at poolside, which provided the perfect back drop for a beautiful sunset over the Pacific Ocean. The Tournament sponsors: Gloomis, Shimano, Hook & Tackle Clothing, L&S Bait, Grays

It's Go Time for Eastcape

.....
 and Mr. Leimbach is getting it all dialed in.
You're in store for a great tournament.

The Sun Finally Sets on Ixtapa

After 20 years of great times and some pretty darn good fishing, the decimation of the fishery has forced a decision from the board to change our venue. What fish are left are jumping on the school bus to Cabo. President Jim Gill explains on page 2.

TAA Departs Ixtapa Venue

by Jim Gill
TAA President

Twenty years ago an angling exploration to Zihuatanejo was the genesis for Ixtapa Sailfish Tournament. The experimental tournament chaired by Rocky Franich and Arlen Steiner was a "big success...wow...perfect...wonderful...and everyone raved about the local atmosphere and fishing" reported the Tag Flag June 15, 1990 edition.

The Ixtapa Sailfish Tournament popularity was a chain reaction inspired by unprecedented release counts paralleled by tremendous atmosphere and good timing. Attracting new anglers, membership, families and friendships the "new" tournament soon replaced the vintage TOC and required instituting participation limits.

The attraction that inspired Ixtapa Tournament successes was its ultimate nemesis...the release count. During the tournament's prime ten year period, 1994 through 2003 the annual four day count averaged 198 releases and the per angler average was 6.12 releases. Whereas recent statistics 2004 through 2010 the annual four day count averaged 83 releases. The disappointing result totals from the past two years 2009 and 2010 garnering 40 and 17 releases respectfully.

Seventeen billfish releases by 36 anglers amplifies the current status of a depleted fishery and the daunting closure for a "big success...wow...perfect...wonderful experience".

The TAA board of directors with the support of current tournament chairman Steve Sears have made the difficult decision to change the winter tournament venue to Cabo San Lucas. Alternative dates and locations were considered for the 2011 tournament identifying significant improvement in

the Cabo San Lucas fishery coupled with the attraction of quality amenities, good atmosphere and convenience. The details of the event are included in this edition of the Tag Flag.

Contrary to the conservation efforts of TAA starting in 1990 with the introduction of catch and release, an emphasis on light tackle short timed releases and most recently circle hooks the fishery has suffered extensive depletion from abuse by illegal commercial fishermen and the continued kill by sport fishermen. Recognizing the severity of the abusive activities and potential destruction of the fishery TAA with the assist of Leonardo and local captains in 2007 presented a case study of the damage to the Zihuatanejo sport fishing industry and the need for government action.

Allegedly regulations were formulated limiting abusive commercial fishing tactics with marginal enforcement. Unfortunately reports substantiate that illegal activity appears to be on the increase. TAA will continue its efforts to communicate the positive results experienced in the Sea of Cortez and Baja California to encourage local officials in Zihuatanejo to take appropriate action to restore their gem.

"We're not here for a long time....we're here or a GOOD time" Bill Gillissie

Taxidermy, Old Harbor Outfitters, and Costa Del Mar were all represented with beautiful banners proudly displayed around the inside of the restaurant. As the sun was setting, Chairman, Ed Lynch, his wife Shana and Co-Chairman, Steve Sears and his wife Dorinda, greeted the guests and TAA members with a reception cocktail followed by an authentic and delicious Mexican buffet. As we opened the 2010 Tournament, we paused to remember the many past TAA members that were no longer with us, including Bill Gillissie who died in late 2009. The 2010 Tournament was dedicated to Bill, while Bill's wife, Karen, would join the tournament later in the week. Once the official business and event particulars were out of the way, a walk was taken down memory lane as stories were heard from Rocky Francich, John Jackson, Dick Wallace and others, about the early days of the TAA and Ixtapa Sailfish Tournaments. The stories really brought home one of the true reasons for the annual trip to Ixtapa, it's about more than fishing. Thank God, because fishing would prove to be the only challenge for 2010.

Blue Marlin (caught by Kelly Schulzke) and 2 Dorado. First fish of the tournament went to John Jacobi and last fish was caught by Ken Ponichtera with 35 minutes left in the day. High point for day one went to Kelly Schulzke with 250 points.

This strong storm was significant to the Tournament in that the water temperature became very inconsistent, there were huge bands of 75 degree water and the small pockets of water over 80 degrees were hard to find. Good blue water was 3 miles out and turning green at 14-15 miles. Fish became very scarce.

Day one (Monday) started off with the anglers having brunch in the front of the Hotel starting at 5:30 am. The excitement to get fishing was in the air and everyone wanted to get to the pier and board the boats. Right out of the gate there were a few hook ups and by the 10 am report 4 sails had be caught and released. Unfortunately the noon report did not show much improvement, and by 2 p.m. only a couple of additional sails had become available to the 36 anglers in 18 boats. By the time the last boat reported in, there were a total of 6 sails, 1 small

Day two proved to be a very frustrating day on the water with a total of two sails caught. The first fish, 3 hours into day two was caught by Rick Bothmer and the last fish caught by Allen Molle at 1:30 PM. A few Dorado appeared and put a couple of members on the board with 10 points.

Day three was an off fishing day and many anglers took their frustrations to the golf course, which for some, provided a source of humility and for others, great laughter. It appears that there is a different set of mechanics involved in swinging a golf club compared to the fine art of hooking a sailfish with circle hooks. Regardless, it was a fun day for all that finished off with a sunset cocktail party in the VIP suite, where once again the fun and laughter of the day's outings provided a nice break from the frustrations of the

elusive *Istiophorus platypterus* (sailfish). I hate it when fish are smarter than us.

Day four was much cooler than normal with rougher seas and high cloud cover most of the day. Life on the panga was filled with stories and observations about where all the fish had gone and what had happened to the plentiful fishing grounds that have come to be appreciated. Two minutes into the fishing day, Gary Morgan hooked the first fish and battled the beast to the side of the boat in a vicious fight, claiming 150 points and putting himself on the board as a contender for the top prize. Angler Greg Wallace took top points on day four with one sailfish and one Dorado, scoring 160 points.

Day five started with the Tournament wide open. Low fish count and low scoring throughout the week left an opportunity for any of the 36 anglers to sweep the Tournament. At ten minutes into the day, Neal McNamara scored his first sailfish and jumped on the scoreboard. The next fish, caught by Rick Bothmer, would put Rick in the winner circle with 450 points (3 sailfish). At the end of the day the final count would be posted with a

total of 16 Sailfish, 1-Blue Marlin and 9 Dorado. The low scoring fish count did not deter the group from celebrating 20 years of fishing the Ixtapa waters with captains and friends at the Mirador Bar, where prizes were presented to the captains. A special presentation of a memorial emblem of remembrance was presented to all the captains, celebrating our long time fellow angler Bill Gillissie's life.

Our top captain for the 2010 TAA Ixtapa Tournament was Jaime Vargas on his boat, Albatros.

The 2010 Ixtapa Tournament closed to a wonderful beach party and dinner fronting the Dorado Pacifico. The Dorado Pacifico Fire Dancers entertained the group with historic Mexican dances. Daniel, the wonderful chef at the hotel, prepared a spectacular buffet dinner beachside and we all stopped to give a warm "thank you" to our friends Luis, Ricardo, Daniel, Jesus and the entire staff of the Dorado Pacifico. After the presentation of awards to the top anglers, fireworks popped and banged and lit up the skies revealing some very dark rain clouds heading our direction. As we closed the tournament, in honor of Bill Gillissie, rain drops started to dance across the stage soon turning to showers. The entire group retreated to the piano bar, where member Gary Lucas sang "Rain Drops Keep Falling on My Head", followed by his heart-felt rendition of "One Ton Tomato".

Did someone go to

John Jackson , past TAA president gives us a bit of a history lesson on how we came to Ixtapa.

Ziahuatanejo Trial a Big Success

excerpt from June 15th, 1990 Tag Flag

As was mentioned in the last Tag Flag, about twenty members put together an experimental tournament in Ziahuatanejo this April.

And the report is:

"WOW! "

"Perfect!"

"Wonderful"

And a whole lot more very, very positive comments. Everyone raved about the hotel, the local atmosphere and the fishing.

Organized and chaired by Rocky Franich and Arlen Steiner, with an assist from TAA president John Jackson, the tournament was greeted by rave reviews from every quarter.

And this despite the fact that the fishing was scheduled during the slow fishing season. George Malloch didn't find the fishing slow though, he won it! We'll get to more on the results later, first let's here about the place.

Ziahuatanejo is the old city next to the modern tourist area of Ixtapa. They are on the same bay but separated by a few miles.

The Hotel Villa del Sol is located in Zihuatanejo and is in the "deluxe" category, but is intimate, with only 'about 30 rooms. Everyone raved over the hotel and liked the location. The atmosphere was gardenlike and very pleasant. Food was part of the room rate for this tournament and was rated good. It is possible to get a room rate without including food that would give members more flexibility in choosing their evening meal, and this would probably be best.

Fishing was done from "panga" type narrow outboard boats which had small cabins. Two anglers fished from each boat, each fishing

with two rods out. Both bait and lures were used. The fishing grounds were several miles out, but everyone felt the boats were fast enough to get there. Basically, the boats headed west until they found blue water, then they started trolling.

All anglers voiced their pleasure at fishing two to a boat.

The majority of the fish caught here are sailfish, so the rules called for 20 pound test. It was allowable to back down on a fish, but the outboards really aren't suited for backing, so mostly the angler's skill was required to tip a fish. All of the captains and mates were good and enjoyed the tournament format very much.

George Malloch won this first tournament with three sails released for the three days. TAA champion Neal McNamara did his usual expert job, releasing two and coming in second. No one else got more than one. Overall 18 sailfish were released for the three days, not good, but not bad either. All of the captains said that the time of year was wrong, which we knew, but the time scheduled was when it fit. The captains said the best time was in the fall, about when we hold the Tournament of Champions.

Maybe we should consider rescheduling the TOC and having a Ziahuatanejo tournament in November? More about this later.

The cost for this event was (and will be) slightly higher than for the TOC. The hotel is more expensive and fishing two to a boat costs more than fishing three to a boat. However, with the enthusiasm shown by everyone who went, it seems that you really get your money's worth.
